International Limited

environmental solutions

*professional range*

# Installation

The EnSo *Ocean Professional* range has been designed with the developer, self-builder and installer in mind. All solutions are designed using robust and durable GRP or polyethylene tanks. Variable invert depths provide the installer with flexibility and make the units simple to install. There is also a comprehensive set of installation guidelines provided with every *Ocean Professional* purchased.

EnSo has dealings with a number of reputable installers throughout the UK and Mainland Europe

Contact the EnSo sales team on +44 (0)1420 511 590 or email [sales@enso-international.com](mailto:sales@enso-international.com) for further details.

# Optional Items

Optional items available with every *Ocean Professional* purchase include:

- Energy saving device - save up to 50% energy on energy usage
- Final effluent pumping station
- Sample chamber
- UV treatment (UV) - Modules available to remove viruses and pathogens
- GSM Telemetry – status messages sent to a mobile phone, reducing system down time

# Servicing

The *Ocean Professional* range of wastewater treatment systems has been engineered to minimise on going service and maintenance costs. However, it is essential that wastewater treatment systems are serviced and maintained on a regular basis, to ensure that they work efficiently and do not pollute the environment.

EnSo has a national network of British Water accredited engineers available providing its customers with tailor-made services and maintenance solutions to best suit their requirements and budgets. Contact the EnSo service sales team on +44 (0)1420 511 590 or email [service@enso-international.com](mailto:service@enso-international.com) for further details.

# Technical Support

EnSo International offers full technical support, site visits, consultancy, commissioning and servicing/maintenance on its own and competitors' equipment.

Contact the EnSo technical team on +44 (0)1420 511 590 or email [info@enso-international.com](mailto:info@enso-international.com) for further details.
